1 Detaching slides

Pull out inner member until it stops, then pull the disconnect lever to detach.

How to detach

2 Positioning / mounting Outer Member

Correct installation is necessary to enjoy push-to-open function. Mount the slides and make adjustments as follows.

- ① Mark the positions of the slides on the inside of the cabinet and fit using the temporary mounting holes to give a little bit of adjustment.
- ② Do not fully tighten the screws just yet. Level up and fix using the round holes and tighten all screws.

Notes:

- Move the intermediate member to screw the holes through the access holes.
- Refer to page 1 about the dimensions E, F, and G.

3 Positioning / mounting Inner Member

- ① Fit the inner member to the side of the drawer, either on or just below the center line for optimum stability.
- ② Level up and fix using the temporary mounting holes and tighten screws to fixing holes.

Notes:

- Refer to page 1 about the dimensions A to D.
